## MemorialTags enable you to create a truly fitting memorial

When someone close to us passes away, it's not just their physical presence we lose. Their history, achievements, stories, and memories are often lost as well. A gravestone or a memorial bench may recall their name and age.

- But what was their proudest moment?
- And their greatest achievement?
- What was their favourite food or song?
- What made them laugh & cry?
- Where were they from?

## What if?

Wouldn't it be wonderful to be able to store photographs, recollections and memories all in one place, which could be easily accessed and shared by friends and family for generations to come?

Well now you can.

## Why would I buy a Memorial-Tag?

MemorialTags are for anyone who wants to create a lasting personal, memorial, of a relative or friend, to be shared and enjoyed by others. It's not just a memorial though, it's a legacy of that person's life and everyone connected to them.

‘OUR MEMORIES UNDERPIN EVERY THOUGHT WE HAVE, EVERY FACT WE LEARN AND EVERY SKILL WE ACQUIRE’.

### How is a memorial created online?

It's very simple and something the whole family can get involved in.

[www.memorialtags.com](http://www.memorialtags.com)

Via the MemorialTags website you can upload anything from wedding photographs, holiday snaps or school pictures, to birth certificates, diary pages, children's drawings, or even school reports.

### Create media links

You can even create links to cherished videos and music files. It's up to you what you include.

## FAMILY TREE

Maybe you are tracing your family tree and have recently discovered the gravestone of a relative.

MemorialTags are an ideal way to share all the information you've collected. And remember, MemorialTags can easily link to a person's spouse. Parents, siblings and children.
